aeGora

A place to connect people and innovate in Archethic Web3 ecosystem

Objectives

- To spread knowledge of Archethic Coldwallet

- To explain its competitive advantages

- Bring to light relevant usage

- Make it possible to create start ups/ Dapp in connecting experts and devs

The format

roundtables

- **AeGora will use X roundtables format to animate debates on specific thematic with experts (video published on Youtube)**

- Examples of roundtables:
  - "Biometry in drug dispensing: challenges and opportunities"
  - "Biometry use in clinical trials: what is at stake?"
  - …

- Example of Experts
  - Legal experts, doctors, politics, biometrics experts, pharmaceuticals companies, banks, authentication companies, Start-ups, ….

AeGora creates a network

Identify & prospect & build a **network** of experts/ambassadors in:

- Authentication and identification
- Biometrics use

| Healthcare | Security | Banks | Sport | Events/ Arts | Legal |

AeGora use the community network/capacities to prospect

➔ Identify Archethic community members (Archers) who can play a role in a specific topic

➔ Identify experts, Organize prospection

➔ Organize roundtables

Archers

| Healthcare | Security | Banks | Sport | Events | Legal |

Experts

The DAO can play a role

- To elect Archers

- To validate topics and attendees of a roundtable

- To scheduled a roundtable

AeGora organization

- DAO to elect archers and schedule roundtables

- Discord to organize Archers work

  - training, prospection, sharing knowledge

- X to host roundtables

- Discord to host community discussions per topics

AeGora Others Benefits

- Beyond the first objectives, there are immediate rebound effects:

- Archers have to be **trained to develop expertise** :
  - Capacity to explain archethic ecosystem, biometric principles, coldwallet operating system, Archethic transaction chain operating system…
  - Archethic team to organize training sessions

- This expertise will allow archers:
  - To **prospect** experts, to **animate** roundtables
  - **To spread knowledge on social network (X, Telegram, Linkedin…)**
    - Capacity to answer questions of new commers
    - Capacity to connect people
